Collectors should remember that the premiums attached to many of the dates herein mentioned are merely to cover the cost of searching for the special varieties when either in or out of stock. It often happens that a particular rare variety may be sought for many months before success attends the efforts.

I occasionally have coins both *inferior* and *superior* to the conditions herein quoted, and the prices differ accordingly. Parties wishing either, may state their wants, and if possible, the pieces will be supplied.

Where no price is quoted, the coin is rarely in stock.

There are no imaginary die varieties here described, nor "over-dates" which cannot be verified by any person with proper eyesight and judgment.

The repetition of a date is indicated by a dash: —.

Repetition of denomination is also represented by a dash: —

Absence of date indicates no coinage in that series.

R.—Reverse.

n.d.—No date.

TO COLLECTORS OF COINS AND MEDALS.

DEALING in Old Coins is with me a business, not a matter of recreation; it is moreover my sole occupation and consumes my entire time. My place of business is a large and well-stocked store upon one of the most centrally located business blocks in New York. My facilities for obtaining Coins, Medals and Books relating to the same are unexcelled; my stock in all lines is decidedly the largest and most varied carried by any dealer in the United States.

The advantage to collectors of putting themselves in communication with one who can supply their wants, no matter what their especial line, must at once be apparent to all who are interested.

Catalogue of United States and Colonial Coins,.....15c.

Price List of United States Fractional Currency,.....10c.

Price List of Confederate Notes,.....10c.

The above are the most complete ever offered. They contain much valuable information, not to be found elsewhere.

Prices and varieties of Foreign, ancient Greek and Roman coins, upon application.

In sending orders, specify as nearly as possible the particular class of coins or medals desired, stating the country and period to be represented. It is also well to enumerate in your order a number of coins that will in value exceed the amount of your remittance. It is impossible to keep a full line of everything; no dealer in the world can do this. Stock is constantly changing through the daily transactions in my business.

Catalogue of Numismatic Books, Part I, Feb. 1885,.....15c.

Catalogue of Numismatic Books, Part II, Aug. 1885,.....15c.

Prices quoted in my catalogues and lists, whether books or coins, do not include postage. Parties ordering will often save expense by including enough for registration, otherwise packages will be sent by express. I do not guarantee the safe arrival of my goods sent by ordinary mail.

Invoices of coins on approval to parties furnishing satisfactory references, is an important feature in my business.

Correspondence solicited from cities, corporations, museums, colleges, libraries, administrators of estates, and collectors. Information relative to the subject of numismatics cheerfully given.

Collections catalogued for public sale.

Personal attention given to auction sales, in examining coins and executing bids therefor.

Estimates given for the designing and cutting of dies for medals.

Antique coins of undoubted authenticity for jewelry purposes and objects of ornament.

I neither buy nor sell coins which are either badly worn or mutilated, nor pierced pieces, unless they are rare.

A large correspondence (to which my entire time cannot be given) frequently necessitates the delay of a day or two before replying. Letters are filed in the order received, and have the earliest attention possible.

Circulars free on receipt of postage. Always enclose stamp with letter requiring reply.
